A Wide World of Entertainment from

RCA Reel Tapes

Now . . . you can choose the music you like. RCA's vast experience plus the world's largest and most modern tape-duplicating plant insures you the optimum in quality and entertainment in both 7½-ips and the new 3¾-ips reel-to-reel tapes.

Reel Tape Acclaim!

Here's what R. D. Darrell wrote in High Fidelity Magazine in reviewing RCA reel-to-reel tapes:

"... Happily, the visual attractions of the new box-cover designs, reel labels, and distinctive gold-colored plastic used for the reels themselves are not belied by the sonic attractions.

"Refinements in 3¾-ips tape-processing technology, plus the advantages provided by new tape-duplicating and research facilities, have resulted in the maintenance of impressively high standards. Even 7.5-ips Old Believers will be forced to admit the technical excellence demonstrated here — not least in signal-to-noise ratios as good as, and sometimes better than, the most quiet-surfaced higher-speed tapings."

Choose from the World's Greatest Artists such as Hirt, Mancini, Jefferson Airplane, Arnold, Gary, Feliciano, Price, Rubinstein, Fiedler — in a broad selection of the Music America Loves Best, for every taste and age. And the exciting new "Collector's Series," rare monaural recordings available on tape for the first time . . . fully compatible for playback on 4-track stereo systems. All this — and for the budget-minded, the economical 2 L.P. equivalent on one 3¾-ips reel-to-reel tape.
